

National 511 Update

San Diego

Nova Scotia

Utah

Georgia

Background

What is 511?

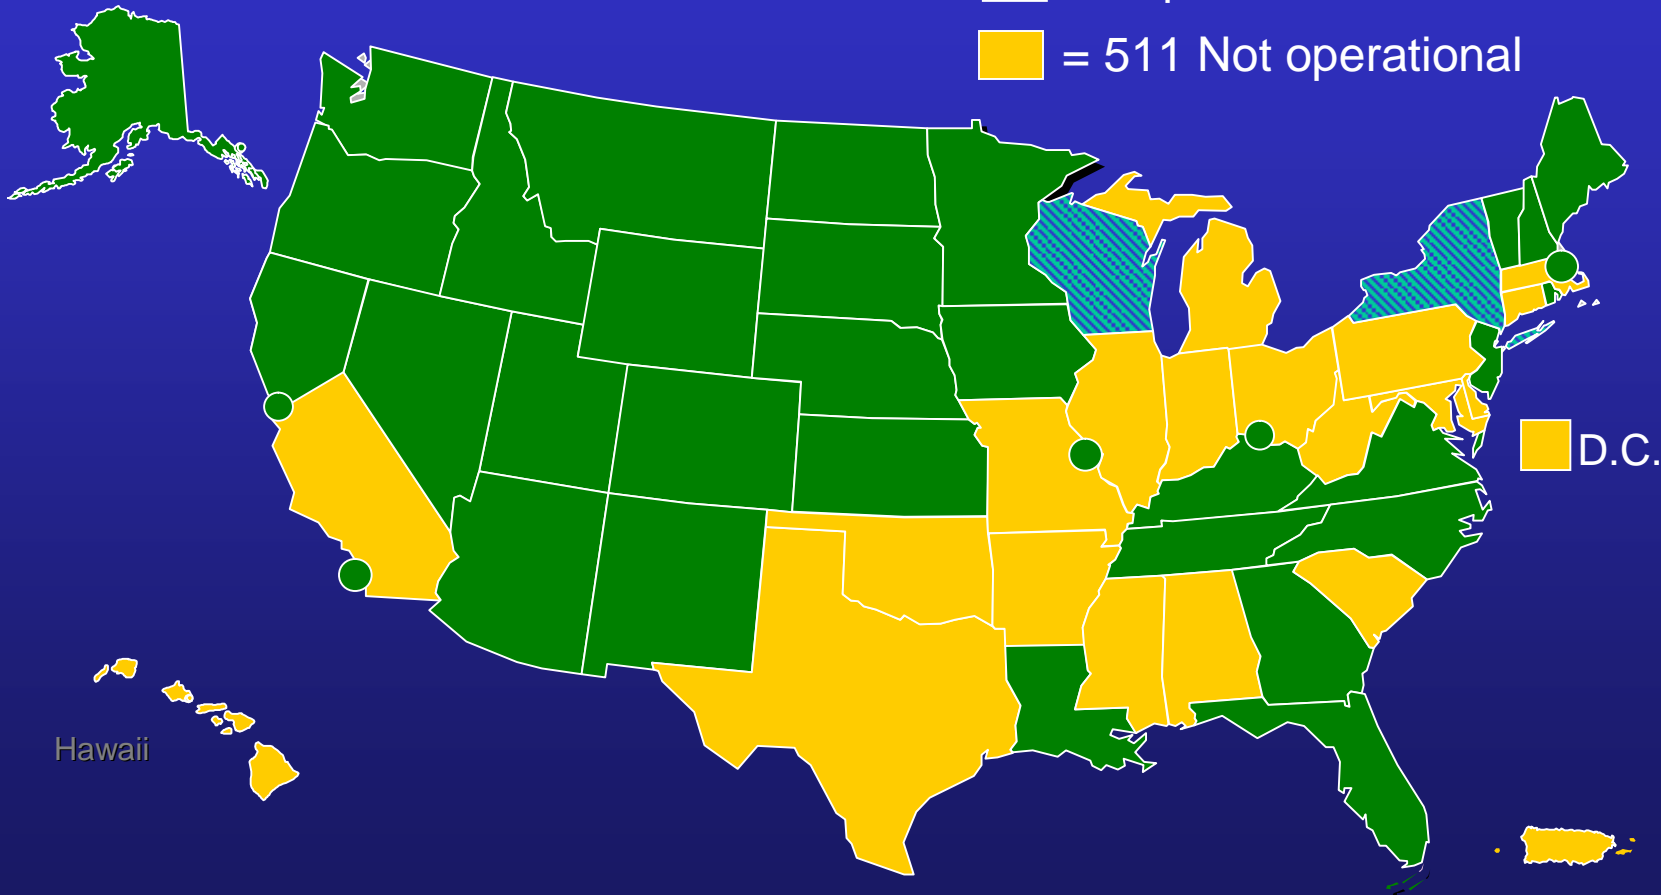

- An “easy to remember” abbreviated three-digit dialing code and website URL
 - Phone – a “speed dial” to a ten-digit telephone number
 - Web – used to “co-brand” traveler information services
- 511 was designated by the FCC in July 2000 as the dialing code for traveler information
- The FCC ruling left nearly all implementation issues to state and local agencies and telecom carriers

511 Deployment Status

-  = 511 Operational ("Live")
-  = Expected "Live" Soon
-  = 511 Not operational

Hawaii

Puerto Rico

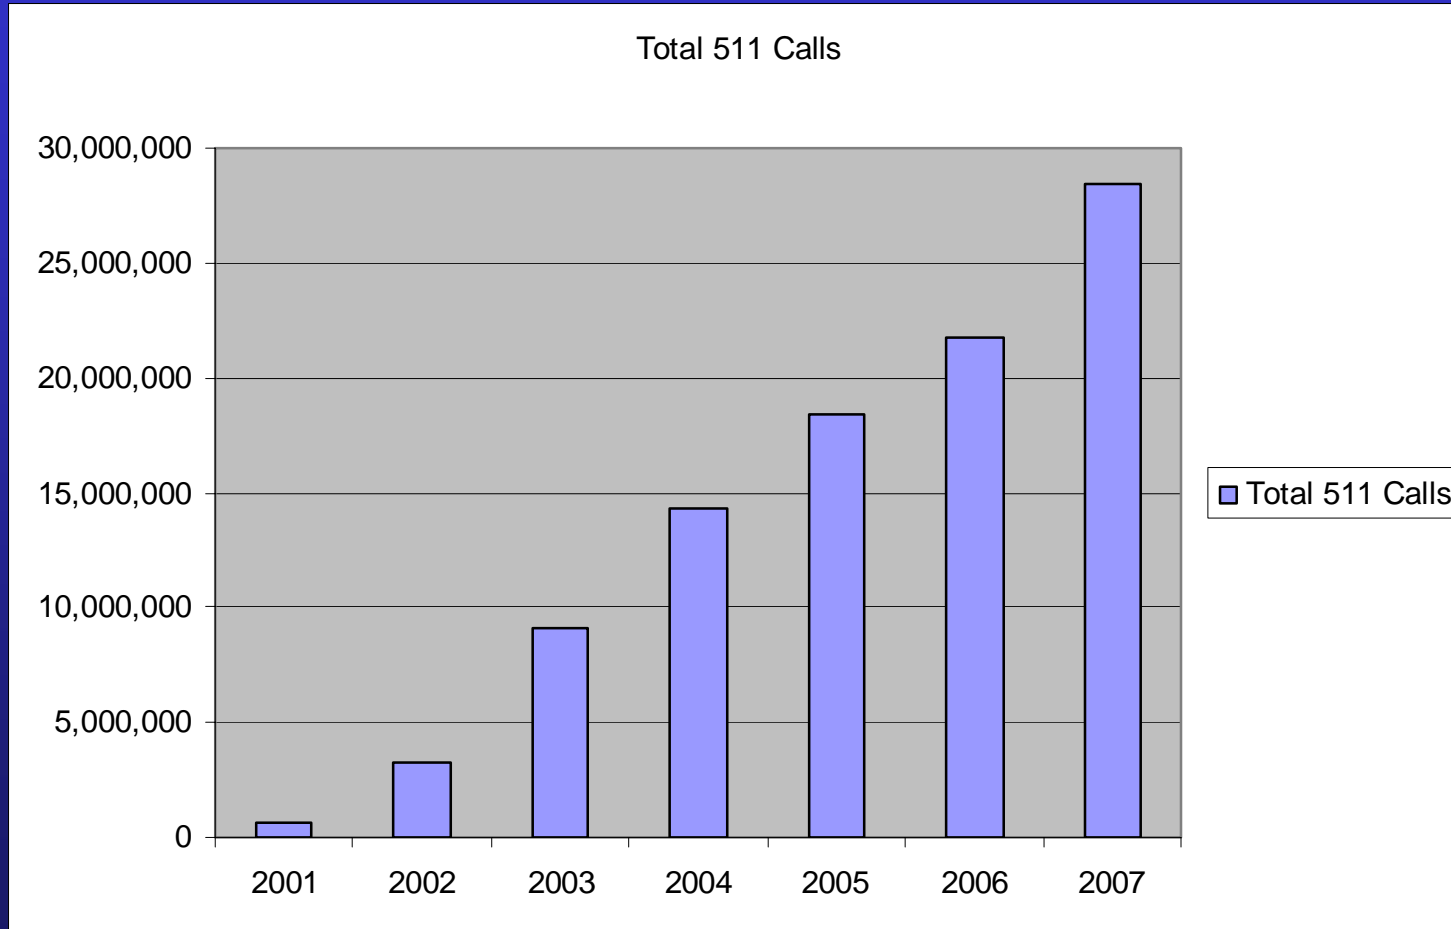

511 Progress

- 41 services in 33 states (and 1 Canadian Province – Nova Scotia)
- Available to over 128 million Americans (47%)
- 96 million calls nationwide since inception
- Expected 2008 Launches
 - Wisconsin
 - New York
 - Los Angeles
 - Florida – new statewide service

511 Deployment Status

Over 96 Million Calls through December 2007

SAFETEA-LU Goal for 511

- **SEC. 5306. (b) (3) RESEARCH AND DEVELOPMENT.**
 - (B) ensuring that a national, interoperable 5–1–1 system, along with a national traffic information system that includes a user-friendly, comprehensive website, is fully implemented for use by travelers throughout the United States by September 30, 2010.
